

## CH. Kattwalk's Magic Flute "Piper"

- GR-93011G26M-PI
  - GR-31594 7/2006
  - GR-CA11246/15M/C-PI
  - GR-EL15980M26-PI
  - DNA Profile: V474228
  - Weight: 70 pounds
  - Height: 23 1/2
  - Excellent pigment
  - Complete dentition and correct bite
  - Owner/Breeder Barbara Wohlferd
  - Co-owner Mary Clegg
- 
- Piper finished his championship easily with limited showing. Along the way he won a Best in Sweeps and a group one from the open dog class
  - Piper is the perfect blend of great structure, fabulous movement and good looks. He is moderate in everyway. He has tremendous shoulder layback and blend from the neck through the shoulder, straight through to the tail. He has balanced, proper angles front and rear. Foot timing and placement is flawless with amazing side gait. Piper has a beautiful head with dark eyes and melting expression. He sports abundant, medium gold coat which grows easily.
  - Piper has a diverse pedigree with a ten generation C.O.I. of 14.37%. Piper has a minimum of 6 generations of passing health clearances behind him.
  - Piper has a happy personality and is a great deal of fun. He gets along VERY well with ALL dogs and puppies. He also does very well with cats and small children. While exhibiting lots of personality in the show ring he is not a boldly confident dog around the house. So it would be best if he were bred to bitches who do have a outgoing, bold personality.

STUD SERVICE AGREEMENT  
Kattwalk Goldens

Under the terms of this agreement, the undersigned parties agree to the following conditions in regard to the breeding of the Golden Retrievers identified below:

Name of Stud Dog - Date of Birth - AKC Number

CH. KATTWALK'S MAGIC FLUTE "Piper" 3/10/2005 AKC SR25690101

Name of Bitch Date of Birth AKC Number

---

I, Barb Wohlferd, as primary stud dog owner agree as follows:

- Stud service will be given by the stud dog listed above, to the bitch listed above during her next season or as agreed upon by all parties.
- All breeding procedures will be supervised by either Barb Wohlferd OR her authorized agent. (Kristi Howe)
- The Stud Dog Owner reserves the right to take a *Show Quality Puppy* in lieu of the stud fee. Said puppy will be registered with the Stud Dog Owner's kennel prefix AND following the Bitch Owner's litter theme. Puppy will be 1<sup>st</sup> or 2<sup>nd</sup> pick at the Bitch Owners discretion.
- This service will be given as soon as the bitch will stand, and subsequently every 48 hours for as long as she will stand, and/OR breeding days will be determined by progesterone levels. Maximum of 3 breedings when progesterone levels are known. *Progesterone timing is preferred.* Breeding will take place via artificial insemination, transcervical insemination or surgical insemination as agreed to by both parties. NATURAL breeding will not take place without the agreement of all parties and will not be provided except in special cases.
- The fees for this stud service is \$1000.00 which will be due as follows:
  - Fresh or Fresh Chilled Semen. \$500.00 non-refundable deposit due at time of stud service.
  - Fresh or Fresh Chilled Semen. \$500.00 due 2 weeks after whelping of 3 or more puppies that survives to 1 week of age.
  - There will be a .50¢ per mile charge to cover the stud dog owner's travel to and from the vet. Also to cover the stud dog owner travel to pick up/return the bitch.
  - Frozen semen: \$1000.00 is due at the time of implantation.
- In the event that there are no puppies, or less than 3 puppies that survive to one week, the bitch owner will be entitled to a repeat stud service on the same bitch or another bitch owned by the same owner.
- The stud dog owner will sign litter application in a timely matter PROVIDED all conditions of this contract have been met, stud fee is paid in full and any outstanding bills that are the responsibility of the bitch owner have been paid.

- *Special: fresh chilled/frozen semen*
  - Fresh chilled: Semen will be collected and shipped as determined by progesterone levels. Stud dog owner will do a pre-breeding semen collection for analysis if it has been more than 1 month since the last collection. (stud dog owner's expense) If there is a problem with the quality of the semen the bitch owner will be notified IMMEDIATELY. Semen will be shipped via the method preferred by the collecting veterinarian. Stud dog owner will do 1 or 2 separate collections and shipping as required.
  - Frozen: If the receiving veterinarian has storage facilities for frozen semen, the semen can be shipped earlier than when using Fresh Chilled semen. 2 breeding units will be shipped in ONE shipment. Shipping will be the method preferred by the veterinarian storing the semen.

The primary owner(s) of the above-identified bitch, agree(s) as follows:

- The primary owner has the agreement from any co-owners to proceed with this breeding.
- The fees for this stud service is \$1000.00 which will be due as follows:
  - Fresh or Fresh Chilled Semen. \$500.00 non-refundable deposit due at time of stud service
  - Fresh or Fresh Chilled Semen. \$500.00 due 2 weeks after whelping of 3 or more puppies that survives to 1 week of age.
  - There will be a .50¢ per mile charge to cover the stud dog owner's travel to and from the vet. Also to cover the stud dog owner travel to pick up/return the bitch.
  - Frozen semen: \$1000.00 is due at the time of implantation.
- The owner(s) of the bitch will be responsible for transportation of said bitch to and from the stud owner's residence. OR will transport the bitch to an agreed upon veterinarian for insemination at the required time.
- The bitch owner is responsible for any expenses related to the bitch's care or breeding (such as veterinary expenses, smears, artificial inseminations, health certificates, etc.) It is preferable that the bitch owner provide the stud dog owners veterinary clinic with credit card information so that billing can be done directly. The bitch owner will also be responsible for any expenses involved in shipping of semen.
- *Special: Fresh chilled/frozen semen.*
  - Fresh Chilled: All expenses related to collecting and shipping of fresh chilled semen are the responsibly of the bitch owner. Progesterone levels are REQUIRED in order to determine proper shipping timing. The bitch owner will give the stud dog owner as much notice as possible when semen will be required. Bitch owner will provide the collecting veterinary clinic with valid credit card information for expenses incurred in collecting and shipping of semen.
  - Frozen Semen: Again, progesterone levels are required to determine timing. Surgical insemination is generally required for frozen semen. Payment arrangements are the same as for fresh chilled.
- It is STRONGLY recommended that progesterone levels be done for ALL breeding until the bitch reaches a level of 4.0 – 5.0 to achieve best chances for conception.

- In order to achieve the highest possible rate of conception and litter size, the stud dog owner may deny service to this bitch if at the time she comes in season, the demand for his services are greater than he is capable of providing;
- Prior to the breeding, the stud dog owner will be provided with the bitch's AKC (or CKC) registration, OFA hip and elbow clearances, a CERF clearance or eye report/exam conducted by a member of ACVO within the past 12 – 18 months and a cardiac clearance. Also photos of the bitch OR a web site URL where the photos can be seen. In addition, a pedigree or on-line pedigree source.
- The bitch will have a negative fecal and brucellosis certificate, a vaginal culture report (only for natural breedings) within 30 days prior to the breeding, and a current immunization record for DHLPP, Parvovirus, and Rabies. These are only required if bitch will be traveling to the stud dog owners premises. It is recommended that the bitch receive a course of Baytril after coming in season and stopped 1 day before breeding is to take place. It would also be helpful to have previous breeding history.
- The owner(s) of the bitch agree not to sell any puppies resulting from this breeding to dog brokers, pet shops or testing laboratories. The bitch owner agrees not to sell more than one puppy to any single buyer without the written permission of the Stud Dog owner. The bitch owner agrees not to sell any of said puppies to any country other than USA or Canada without the written permission of the Stud Dog owner.
- The stud dog owner will be provided with the names and addresses of all puppy buyers and all puppies' AKC registered names resulting from this breeding. Also, the stud dog owner will be kept up to date on any AKC titles earned by said puppies.

AFTER READING THE ABOVE TERMS AND CONDITIONS, WE FIND THEM MUTUALLY AGREEABLE AND ACCEPTABLE.
